**Options**

The booklet below is designed to guide students through one of the most important education choices they have ever had to make.

Choosing their Key Stage 4 programme of study is a really exciting opportunity for them to reflect on what their curriculum strengths and interests are, as well as what career path they might wish to follow later in life. It is a chance to tailor a package of subjects and courses that they will enjoy and experience success in, which will provide them with a strong base from which to launch into the next
